Subject: [External] Oppose the Atlantic Coast Pipeline

CAUTION: External email. Do not click links or open attachments unless verified. Send all suspicious email as an attachment to report.spam@nc.gov.

I am writing to ask you to do all in your power to STOP the progress of the Atlantic Coast Pipeline.

1. It is not needed. Our current pipelines are not being used to capacity.
2. It will not benefit the counties that it passes through. It will damage landscapes, and create little economic benefit.
3. It will encourage further dangerous and damaging fracking.
4. We need to move AWAY from use of fossil fuels, not create more infrastructure for them!

Please work with the Governor and STOP this dangerous industrial incursion into our state!

Victoria Kaprielian, MD
